

LET'S FIGHT FOOD WASTE!

Food waste is damaging our planet!

Did you know that wasting food wastes everything?

On average Australians waste 298kg of food each year. That is the same weight as six adult kangaroos.

The majority of food waste comes from our homes.

GOOD NEWS!

**WE ARE ALL PART OF THE SOLUTION,
DO YOUR BIT AND LOVE YOUR FOOD!**

Sign up to FEAST so your school can join the fight against food waste.
