

5 GREAT REASONS TO TEACH FEAST

FEAST™
FOOD EDUCATION AND
SUSTAINABILITY TRAINING

OzHarvest's education program FEAST is the essential ingredient for any school putting the planet first and inspiring the next generation to become future change-makers. Here's why you need it in your school!

CURRICULUM-ALIGNED & READY TO GO!

The program aligns with the Australian curriculum outcomes and the cross-curriculum priority of Sustainability. It uses the latest teaching and learning approaches, includes professional development training (in-person or online), is easy to implement and can be adapted to fit any school or class needs.

BRINGS OUT THE BEST IN STUDENTS

Designed to develop cognitive and emotional competencies, the program encourages positive behaviours such as empathy, generosity and sharing. Students learn to collaborate, become resilient, develop communication skills and stay engaged through hands-on cooking activities.

HELPS KIDS EAT MORE FRUIT AND VEG

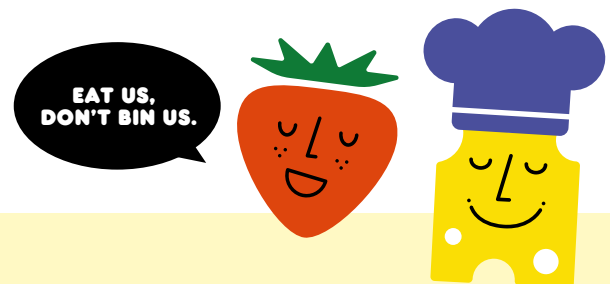

FEAST includes a wide range of nutritious, fun and easy recipes. Students experience food prep and cooking with fresh produce and new ingredients, leading to healthier eating habits. With food insecurity affecting many families, it provides access to affordable healthy recipes.

CREATES FUTURE CHANGE-MAKERS AND CONNECTS COMMUNITIES

FEAST gets students thinking about how they can look after our planet and the positive change they can create at school and at home. Extending beyond the classroom, it connects the whole school community inviting parents, carers and volunteers to support cooking activities and celebrate learning and creativity.

A TEACH & REPEAT PROGRAM

The FEAST program is a one-time investment for your school. It can then be repeated every year at no extra cost, with ongoing access to the curriculum resources and additional PD training. All you need to do is send us an email to feast@ozharvest.org.

FUNDING SUPPORT AND COSTS:

Financial support is available to eligible schools. For more details on cost, funding, and access to resources, fill out [the free registration form](#) on the FEAST website (ozharvest.org/feast).

If you have further questions, please send an email to: feast@ozharvest.org
